

Managed Cloud Environments

OFFERING GOVCON COMPLIANT CLOUD SERVICES

Specializing in **secure and reliable** cloud environments, Sand Solutions is a reliable Partner for hosting Deltek applications. We provide cloud environment customization to fit your needs and the highest levels of **compliance** to make sure your data is safe.

The Sand Solutions Advantage

When **compliance, security and integration matters**, Sand Solutions' GovCon compliant cloud services are a clear alternative. Companies in need of data storage and security, will benefit from our **Private Managed Cloud Environments***. This option provides your business with its own private network, giving you control over your storage, an array of software and technical support, accessibility through Windows and more. If GovCon compliance is critical to your business, **contact us to design a solution that fits your needs.**
