

Software Solutions

LEADERS IN DELTEK EXTENSIBILITY AND INTEGRATIONS

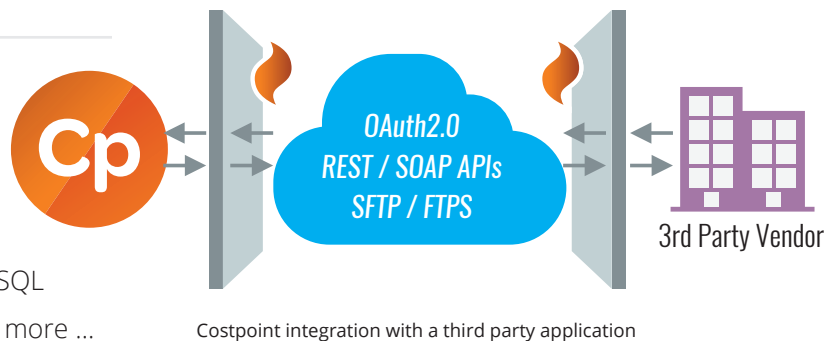

Sand Solutions offers secure and reliable cloud-to-cloud Costpoint integrations and Extensibility. Our team of software development experts can help expand the reach of your Deltek products using the latest technologies and best practices available.

Software Development that Meets Your Needs

With over 15 years of Deltek software development, Sand Solutions is a leader in implementing business rules and validations. From screen customizations, software integrations, timesheet validations and more; our expert developers know Costpoint *inside-out* ... literally! **Our integrations are hosting agnostic:** Whether you're a Deltek Cloud customer, hosting on-premise or in our cloud; **Sand Solutions will design a specific solution to match your requirements.**

EXAMPLES OF SOFTWARE SOLUTIONS:

- Timesheet validations
- Cloud-to-cloud software integrations
- Deltek Extensibility screen customizations
- System architecture design and development
- Platform migrations from Oracle to Microsoft SQL
- Installations, implementations, consulting and more ...

When you need Costpoint Extensibility, or need to integrate Deltek with third-party applications, we can efficiently build a solution that meets your needs thanks to our vast experience and knowledge in Deltek software development.
